Thank you to My CWA for providing Domestic Abuse Training to the Team - we all learnt a lot and found it very informative!

**Multiply – Springboard** provided a 5 week sewing course giving our parents the opportunity to learning new skills making cushion covers, bunting etc and brushing up on maths skills.

### Here to Listen What our parents say....

- 6 parents supported -120 calls made
- One of our parents has been receiving calls for over two and a half years. She readily admits that the service is a lifesaver.
- I've always been impressed with the telephone service. My Here to Listen volunteer is compassionate and very thoughtful. She is lovely and understands what I'm going through. She knows that some weeks can be very difficult and always says, "Look after yourself."
- Another call recipient, who doesn't drive, made over a two-hour round journey on public transport to CLASP's premises to bring a plant as a thank you to the volunteer who calls her.
